EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

Claim 1, line 8, before "release line signal", replace "a" with --the--.

2. The following is an examiner's statement of reasons for allowance:

Claims 1-11 recite a non-volatile bit addressable memory array.

The prior art does not teach or suggest the following limitations recited in claim1:

a second control circuit having a transistor and receiving the bit line and a release line signal, the second control circuit communicates with a restore node based on the bit line signal and the release line signal; and

an electromechanically deflectable three terminal switch comprising:

a first terminal connected to the select node;

a second terminal connected to the restore node; and

a third terminal connected to a reference signal and a deflectable nanotube article, the nanotube article being electromechanically deflectable to contact the select node when a predetermined voltage difference is applied between the first and third

terminals and being release from such contact when a predetermined voltage difference is applied between the second and third terminals.

Therefore, the application is in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Huan Hoang whose telephone number is (571) 272-1779. The examiner can normally be reached on Mon-Fri 8:30AM-5:00PM.
